Topic Five: Enterprise Architecture

After watching the lecture from your instructor titled "**Enterprise Architecture**", which is in the GRC100-M2-3-Enterprise Architecture, Asset and Change Management (5 videos, Total time: 13:00) videos page, write a one-page paper in the Enterprise Architecture section of the template, using references where appropriate, and explain the following:

Step 1: What is Enterprise Architecture (EA) and how does it help an organization align strategy to business processes? Describe the following EA Frameworks.

-
  -
    -
    - TOGAF

- NAF
- UML
- SABSA
- FEAF

Step 2: Decide which EA framework you would prefer over the others and justify your choice.

-
  -
    -
    - What are the advantages of applying an EA framework?
