GRC Presentation

Create a 10 slide presentation that highlights what corporate governance you might recommend to a financial organization to protect sensitive data and information. For each item you choose, explain why it should be considered and how it would align with a regulatory compliance requirement.

Examples to consider:

1.
    1.
        1. Privacy Policies
        2. Identification Procedures
        3. Access Control Policies
        4. Customer Disclosure Notifications
        5. Acceptable Use Policies (employees & consultants)
        6. Non-Disclosure Agreements
        7. Confidentiality Agreements
